

SMALL GRANT PROGRAM is looking for your help!

The Trust is seeking grant proposals to assist in implementation of our mission and the education/outreach elements identified in our Strategic Plan statement of need, as follows:

1. Public awareness and education on the values of wetlands, grasslands, and riparian areas; importance of maintaining soil health and the interconnection with water quality and the overall health of our natural resources.
2. Public awareness and education on the importance of North Dakota natural resources.

In 2018, we've increased the amount of funding to \$75,000 (with up to \$10,000 available per approved grantee/project) to help education/increasing awareness of good works on the ground!

Please look us up at www.NDNRT.com, under Programs and then Small Grant Program for the application materials—**don't miss out on the submission deadline of March 30, 2018!**
